Jackson Safety* Nemesis* Eyewear

Stylish Comfort. Lasting Protection.

There's a reason why Jackson Safety* Nemesis* Eyewear is one of the top-selling brands in North America and the most popular line in the Jackson Safety* Eyewear portfolio. Make that several: comfort, style, and durability, and a range of options to address individual needs. Like color choices. Different size frames. Vision assistance. They all affect how workers look and feel in protective eyewear – potentially tipping the scale between protection and injury. Why take a chance on anything else? Choose this trusted brand to enhance safety and productivity in your workplace.

Eye injuries can be prevented

Nearly three out of five workers injured were either not wearing eye protection or wearing the wrong kind of eye protection for the job.¹

¹U.S. Bureau of Labor Statistics

Comfort, Style and Durability

That's the Jackson Safety Nemesis* Eyewear difference.*

These three attributes can have a major impact on compliance because, in many cases, workers will risk injury rather than compromise how they look and feel.

The concern? Becoming one of the estimated 2,000 workers who sustain a job-related injury every day.²

Unsurpassed durability is just what you'd expect from a trusted leader recognized for high-quality, reliable eyewear[†]

[†] Applies to Nemesis*, Nemesis* Polarized, Nemesis* VL, Nemesis* CSA, Nemesis* Rx Readers, and Nemesis* with Rx Inserts Safety Eyewear.

Jackson Safety* Nemesis* Eyewear is comfortable, stylish, and durable with quality features such as:

- **Meets ANSI Z87.1+ standards for impact** to ensure compliance with minimum OSHA standards and impact protection
- **Polycarbonate lenses that provide 99.9% UVA/UVB/UVC protection** to prevent possible damage to the cornea, lens, retina, and other parts of the eye
- **Scratch-resistant, hard-coated lenses** for durability and longevity
- **Lightweight, flexible frames** — designed for durability, longevity, and enhanced comfort for a range of people
- **A neck cord with every pair** for safe and easy storage when eyewear is not in use
- **Different lens options for different environments** to help reduce eye fatigue
- **A wide array of colors and styles** — to let people express their individuality

Key

-  Meets the optical requirements of the ANSI Z87.1 standards
-  Meets the impact protector requirements of the ANSI Z87.1 standards
-  Certified to meet the impact, ignition/flammability, coverage, optical requirements of the CSA Z94.3 standards
-  Lenses are made of a polycarbonate material that provides 99.9% UVA/UVB/UVC protection
-  Product complies with the Trade Agreements Act
-  Number denotes the base curve of the eyewear; a higher base curve provides more wraparound protection and peripheral vision, and can reduce the need for side shields
